A Message was delivered by the Gentleman Usher of the Black Rod:—

Members of the House of Commons:

His Honour the Deputy of His Excellency the Governor General, desires the immediate attendance of this Honourable House in the Chamber of the Honourable the Senate.

Accordingly, the House went up to the Senate Chamber, when the Speaker of the Senate said:—

*Honourable Members of the Senate,

Mr. Speaker communicated to the House the following letter which he had received:—

GOVERNMENT HOUSE
OTTAWA

OFFICE OF THE SECRETARY TO THE GOVERNOR GENERAL

13th September, 1949.

SIR,—I have the honour to inform you that His Excellency the Governor General will arrive at the main entrance of the Houses of Parliament at 3.00 p.m. on Thursday, September 15, and when it has been signified that all is in readiness, will proceed to the Senate Chamber to open formally the First Session of the Twenty-first Parliament of Canada.

I have the honour to be,
Sir,
Your obedient servant,
H. F. G. LETSON,
Major General.
Secretary to the Governor General.

The Honourable
The Speaker of the House of Commons,
Ottawa.

A Message was delivered by the Gentleman Usher of the Black Rod:—

Mr. Speaker,

His Excellency the Governor General desires the immediate attendance of this Honourable House in the Chamber of the Honourable the Senate.

Accordingly, Mr. Speaker, with the House, went up to the Senate Chamber, and then Mr. Speaker spoke to the following effect:—

May it please Your Excellency:

The House of Commons have elected me their Speaker, though I am but little able to fulfill the important duties thus assigned to me.

If, in the performance of those duties, I should at any time fall into error, I pray that the fault may be imputed to me, and not to the Commons, whose servant I am, and who, through me, the better to enable them to discharge their duty to their King and Country, humbly claim all their undoubted rights and privileges, especially that they may have freedom of speech in their debates, access to Your Excellency's person at all seasonable times, and that their proceedings may receive from Your Excellency the most favourable consideration.

The Honourable the Speaker of the Senate then said:—

Mr. Speaker,

I am commanded by His Excellency the Governor General to declare to you that he freely confides in the duty and attachment of the House of Commons to His Majesty's Person and Government, and not doubting that their proceedings will be conducted with wisdom, temper and prudence, he grants, and upon all occasions will recognize and allow their constitutional privileges.

I am commanded also to assure you, that the Commons shall have ready access to His Excellency upon all seasonable occasions, and that their proceedings, as well as your words and actions, will constantly receive from him the most favourable construction.

And the House being returned,—

Mr. Speaker reported that the House had been in the Senate Chamber, and that he had, in their names and on their behalf, made the usual claim of privileges, which His Excellency had been pleased to confirm to them.

Mr. Speaker informed the House that since the General Election, held on June 27, 1949, communications had been received from several Members notifying the Chief Electoral Officer, in accordance with Chapter 145, Section 11 of the Revised Statutes of Canada, 1927, that the following vacancies had occurred in the representation, viz:—

Mr. St. Laurent, by leave of the House, introduced a Bill, No. 1, An Act respecting the Administration of Oaths of Office, which was read the first time.

Mr. Speaker reported, that when the House did attend His Excellency the Governor General this day in the Senate Chamber, His Excellency was pleased to make a speech to both Houses of Parliament, and to prevent mistakes, he had obtained a copy, which he read to the House as follows:—

Honourable Members of the Senate:

Members of the House of Commons:

There has been deep satisfaction in all parts of the country that the steady improvement in the health of the King has enabled His Majesty to resume most of his customary activities.

The opening of the twenty-first Parliament is marked by the presence for the first time of the representatives of the new province of Newfoundland. It is a pleasure for me to welcome their participation in the national affairs of a greater Canada.

With the admission of the new province of Newfoundland the Canadian nation attained the geographical limits planned by the Fathers of Confederation. You will be asked at the present session to approve measures designed to facilitate the attainment of the constitutional limits of our nationhood. To this end, a Bill will be introduced to amend the Supreme Court Act so that the Supreme Court of Canada will become the final court of appeal for Canada.

You will also be asked to approve addresses praying the Parliament of the United Kingdom to vest in the Parliament of Canada the right to amend the constitution of Canada in relation to matters not coming within the jurisdiction of the Legislatures of the provinces nor affecting the constitutional rights and privileges of the provinces or existing rights and privileges with respect to education or the use of the English and French languages.

My Ministers will seek to arrange for early consultation with the provincial governments with a view to agreeing upon an appropriate procedure for making within Canada such other amendments to the constitution as may from time to time be required.

The hopes held four years ago for world peace and security under the aegis of the United Nations have not yet been realized. The menace of Communist totalitarianism continues to threaten the aspirations of men of good will. It is, however, gratifying that the North Atlantic Treaty has been brought into effect and is already proving its worth in lessening the risks of armed aggression.

The defence needs of Canada both as a separate nation and as a signatory of this Treaty are being kept constantly under review. Good progress has been made in the co-ordination and unification of our armed forces and conditions of service are being improved. Special attention is being given to research and development intended to provide the forces with the most modern equipment suitable for present requirements.

A measure will be introduced to consolidate the legislation respecting the defence forces and the Department of National Defence.

It is the view of my Ministers that the economic health and stability of the nations of the North Atlantic community must be the real foundation of their ability to resist and, therefore, to deter aggression.

Although the nations of Western Europe have made substantial progress towards recovery from the ravages of war, they have not yet been able to restore completely their economic strength. Their shortage of dollars continues, and international trade remains in a state of unbalance. The govern-

ment is seeking by all appropriate means to co-operate in measures to restore economic equilibrium. The achievement of a pattern of world trade in which the trading nations can operate together within one single multilateral system continues to be the ultimate aim of my government.

Since Parliament last met the International Wheat Agreement has come into operation. The Agreement together with the other arrangements made to dispose of our surplus agricultural products will provide additional economic security for many of our farmers.

At home we continue to enjoy prosperity. Agricultural production generally continues to be high. Private capital investment and employment have remained at high levels. Relations between employers and employees have, with few exceptions, been satisfactory.

As a result of legislation passed at the last session of Parliament, new agreements with respect to old age pensions have been completed with nine of the provinces, and increased pensions have now been made available to the aged and the blind in those provinces. The completion of a similar agreement with the Province of Newfoundland awaits the enactment of the required provincial legislation.

The continued co-operation of the provinces in the implementation of the National Health Programme has resulted in further progress being made towards the desired objective of improved health facilities and services for the people in all parts of Canada.

While more housing units are being built this year than ever before the demand for housing continues. Following discussions with the governments of the provinces your approval will be sought for legislation to broaden the scope of the National Housing Act.

A Bill to provide for the continuance of functions now vested in the Department of Reconstruction and Supply, including the ministerial responsibility for the Central Mortgage and Housing Corporation, will be placed before you for your approval.

You will also be asked to approve a measure to enable the government to assist in the provision of a trans-continental highway.

The government has concluded new air agreements with the United Kingdom and the United States. The agreements provide new routes for our international air services to the United States and to the Orient, and additional traffic stops in United States and United Kingdom territory for our present international services on the North Atlantic, to the Caribbean and to the South Pacific.

Measures demanding your consideration will include a Bill respecting a National Trade Mark and True Labelling; a Bill respecting Forest Conservation; a Bill to incorporate the Canadian Overseas Telecommunication Corporation; a Bill respecting assistance to the shipbuilding industry and merchant shipping; a Bill to extend the life of the Export and Import Permits Act; and Bills to amend the Exchequer Court Act, the Industrial Development Bank Act, the Emergency Gold Mining Assistance Act, the Prairie Farm Assistance Act, the Customs Act, and the Veterans' Land Act of 1942.

Members of the House of Commons:

You will be asked to make provision for the public service for the current fiscal year. The budget resolutions introduced at the last Session of Parliament will be submitted for your approval and the enactment of the appropriate legislation.

*Honourable Members of the Senate:**Members of the House of Commons:*

I pray that Divine Providence may bless your deliberations.

On motion of Mr. St. Laurent, it was ordered,—That the Speech of His Excellency the Governor General to both Houses of Parliament be taken into consideration on Friday next, and that this order have precedence over all other business except the introduction of Bills and Government Notices of Motions on Mondays, Wednesdays and Thursdays until disposed of.

On motion of Mr. St. Laurent, it was ordered,—That a Special Committee be appointed to prepare and report, with all convenient speed, lists of Members to compose the Standing Committees of this House under Standing Order 63, said Committee to be composed of Messrs. Fournier (Hull), Claxton, Casselman, Johnston and Weir.

Mr. St. Laurent delivered a Message from His Excellency the Governor General, which was read by Mr. Speaker, as follows:—

ALEXANDER OF TUNIS:

The Governor General transmits to the House of Commons a certified copy of an approved Minute of Council appointing the Honourable Alphonse Fournier, Minister of Public Works, the Honourable D. C. Abbott, Minister of Finance, the Honourable J. J. McCann, Minister of National Revenue, the Honourable F. G. Bradley, Secretary of State, to act with the Speaker of the House of Commons as Commissioners for the purposes and under the provisions of Chapter 145 of the Revised Statutes of Canada, 1927, intituled: "An Act respecting the House of Commons".

Government House, Ottawa,
7th September, 1949

Mr. St. Laurent, a Member of the King's Privy Council, laid before the House,—Copy of a letter addressed by the Prime Minister of Canada to the Premiers of the various Provinces of Canada with respect to amending the British North America Act so that the Constitution of Canada may be amended by the Parliament of Canada.

Mr. Speaker presented the Report of the Librarians of Parliament which is as follows:—

To the Honourable the Speaker of the House of Commons:

The last report of the Joint Librarians was submitted on January 26, 1949. To this little can be added.

The supplementary Catalogue of books donated, purchased and received under the terms of the Copyright Act during 1948, was distributed to Senators and Members towards the close of last session. Mr. John Brown, Senior Bookbinder in the Library since 1924, retired on superannuation last March.

The work of recataloging the library has made it necessary to obtain a large number of catalogue cabinets. Some changes in that part of the main chamber known as "the Ring" will have to be made to accommodate these. The old chamber, in the past so much admired for its spaciousness and quiet charm, is now cluttered with desks and cases. There is no place where a Member may study in quiet. The Librarians have again and again appealed for more space to relieve the congestion in the library which, if it is to be efficiently run, should not contain more than 100,000 volumes. Although we have obtained the use of rooms in the Supreme Court and under the Senate—and these may at any time be taken from us—the building itself contains about 400,000 volumes. To these are added nearly 10,000 volumes yearly, 1,800 by Copyright alone.

Respectfully submitted,

FELIX DESROCHERS

F. A. HARDY

Joint Librarians.

The House resumed Debate on the proposed motion of Mr. MacInnis:—That, in the opinion of this House, the government should seek the co-operation of the provinces for the purpose of formulating a programme of social security that will be national in scope, adequate in its provisions, and that will cover all citizens of Canada in every circumstance where the individual or the family is, for any reason, deprived of the opportunity of earning a living.

RULING OF MR. SPEAKER

MR. SPEAKER: With respect to this resolution, I must inform the House that after due reflection I have reached the conclusion that the proposed resolution is in the nature of an order which the Government could not ignore and which could not be carried out without the expenditure of public moneys.

Citation 437 of Beauchesne's Parliamentary Rules and Forms (3rd Edition, 1943) and Bourinot's Parliamentary Procedure (4th Edition), page 407, both read in part as follows:

"No principle is better understood than the constitutional obligation that rests upon the executive government, of alone initiating measures imposing charges upon the public exchequer."

It is customary for members to introduce resolutions that do not directly involve the expenditure of public money and have no operative effect but simply express an abstract opinion on a matter which may necessitate a future grant. (Can. C.J. Vol. LVIII, p. 100).

However, in Citation 453, page 171, of Beauchesne's 3rd Edition, it is clearly stated that—

"The tendency has been in the Canadian House of Commons, for the past twenty-five years, to rule out all motions purporting to give the Government a direct order to do a thing which cannot be done without an expenditure of money."

In my opinion, the resolution which has been proposed does not simply express an abstract opinion. It seems clear that if it carried the Government would be bound to comply with its terms and that therefore it is in the nature of a direct order and that the order could not be carried out without an expenditure of public moneys. This expenditure would be greater or less,

depending on the manner in which the co-operation of the provinces was sought, but it is evident that some expenditure would be involved and that the expenditure might be considerable.

Some modern instances of the tendency to rule out all motions of this character may be found in the Journals of the House of Commons, 1936, at page 52; and 1948, at page 225.

I have gone into this matter quite fully because the resolution was put on the order paper by the honourable member for Vancouver East (Mr. MacInnis). The honourable member has been in the House a long time and I know that he has given a great deal of attention to the rules, and I always give careful consideration to any representations he makes respecting order and procedure in the House. It is only fair that I should go into the matter fully. For the reasons which I have stated I rule that the resolution is out of order.

The House then resumed Debate on the proposed motion of Mr. Fulton: That Bill No. 10, An Act to amend the Criminal Code (Portrayal of Crimes), be now read the second time.

And the Debate continuing; the said Debate was, on motion of Mr. Tustin, adjourned.

The Order being read for the second reading of Bill No. 13, An Act to amend The Canadian Wheat Board Act, 1935;

Mr. Wright, seconded by Mr. Knowles, moved,—That the said Bill be now read the second time.

After Debate thereon, the question being put on the said motion; it was negatived, on division.

Mr. Bertrand, seconded by Mr. Belzile, moved,—That, in the opinion of this House, the government should, during the present session, take into consideration the advisability of including in their social security programme a system of allowances to every person, without any sufficient income or means of support, who, by reason of an injury, accident, congenital infirmity or incurable disease, is at a disadvantage in seeking or obtaining employment, or incapable of providing for his subsistence, and whose age prevents him from benefiting by the social security legislation now in force.

And a Debate arising thereon; the said Debate was, on motion of Mr. Picard, adjourned.

At eleven o'clock, p.m., Mr. Speaker adjourned the House without question put, pursuant to Standing Order 7, until to-morrow, at three o'clock, p.m.

Mr. Mayhew moved,—That the House do go into Committee of the Whole, at the next sitting of the House, to consider the following proposed Resolution:—

That it is expedient to present a measure for the purpose of regulating the inspection of fish and fish containers and of marine plants for export and import and to provide for the appointment of inspectors, and other officers and employees required for the proper administration of the Act.

Whereupon Mr. Mayhew, a Member of the King's Privy Council, informed the House, That His Excellency the Governor General, having been informed of the subject-matter of the said proposed Resolution, recommends it to the House.

Resolved, That the House do go into Committee of the Whole, at the next sitting of the House, to consider the said proposed Resolution.

The Bill No. 2, An Act to amend the Supreme Court Act, was again considered in Committee of the Whole, reported without amendment;

Mr. Garson then moved,—That the said Bill be now read the third time.

And a Debate arising thereon;

Mr. MacInnis raised the point of order that, objection having been taken to third reading at this sitting, such reading cannot be given.

RULING OF MR. SPEAKER

Mr. SPEAKER: I have heard what honourable members have said, and I am prepared to give my ruling. This bill received second reading one day last week. It was then sent to the committee of the whole House for consideration

by it. The Committee completed its work this afternoon and has now reported the bill without amendment. When the bill was reported to the House, I asked the House, although it was not necessary for me to do so—see Beauchesne's Second Edition, reference 810, "When shall the report be received?" The answer was, "Now." I then asked the House, "When shall this bill be read a third time?" I received the answer: "Now."

Standing Order 73 which has been quoted by honourable members reads as follows:

"Every bill shall receive three several readings on different days, previously to being passed."

This bill had received two separate readings previously to today. The rule goes on to read as follows:

"On urgent or extraordinary occasions, a bill may be read twice or thrice, or advanced two or more stages in one day."

With that rule must be read Standing Order 77, which is as follows:

"All amendments made in committee are reported by the chairman to the House, which shall receive the same forthwith. After report the bill is open to debate and amendment, before it is ordered for a third reading. But when a bill is reported without amendment, it is forthwith ordered to be read a third time at such time as may be appointed by the house."

I would refer honourable members to the words "forthwith" and the references in Beauchesne's Parliamentary Rules and Forms, Second Edition, which have been mentioned in debate by a number of members and also to the latter part of reference 705 Beauchesne's Third Edition. I shall not read these references, but when they are considered along with Standing Orders 73 and 77 I think it is clear that it is in order for a bill to be read a third time on the same day that it is reported from the committee, provided that it has been reported without amendment.

I therefore rule that it is in order for this bill to be read a third time now.

And the Debate still continuing;

At six o'clock, p.m., Mr. Speaker left the Chair, to resume the same at eight o'clock, p.m.

8 P.M.

(The Order for Private and Public Bills was called under Standing Order 15)

(Public Bills)

The Order being read for second reading of Bill No. 7, An Act to amend the Railway Act;

Mr. Adamson, seconded by Mr. McLure, moved,—That the said Bill be now read the second time.

After Debate thereon, the question being put on the said motion; it was negatived.

The hour devoted to Private and Public Bills having expired;

The House then resumed the Debate on the proposed motion of Mr. Garson: That Bill No. 2, An Act to amend the Supreme Court Act, be now read the third time.

After still further Debate thereon, the question being put on the said motion; it was agreed to, on division.

The said Bill was accordingly read the third time and passed, on division.

The Order being read for the House to resolve itself again into Committee of Supply;

Mr. Gardiner moved,—That Mr. Speaker do now leave the Chair.

After Debate thereon, the question being put on the said motion; it was agreed to.

The House accordingly resolved itself again into Committee of Supply.

To the King's Most Excellent Majesty:

Most Gracious Sovereign:

We, Your Majesty's most dutiful and loyal subjects, the Commons of Canada in Parliament assembled, humbly approach Your Majesty, praying that You may graciously be pleased to cause a measure to be laid before the Parliament of the United Kingdom to be expressed as follows:

An Act to amend the British North America Act, 1867, relating to the amendment of the Constitution of Canada.

Whereas the Senate and Commons of Canada in Parliament assembled have submitted an Address to His Majesty praying that His Majesty may graciously be pleased to cause a measure to be laid before the Parliament of the United Kingdom for the enactment of the provisions hereinafter set forth:

Be it therefore enacted by the King's Most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:

1. Section ninety-one of the British North America Act, 1867, is amended by renumbering Class 1 thereof as Class 1A and by inserting therein immediately before that Class the following as Class 1:

"1. The amendment from time to time of the constitution of Canada, except as regards matters coming within the classes of subjects by this Act assigned exclusively to the Legislatures of the Provinces, or as regards rights or privileges by this or any other constitutional Act granted or secured to the Legislature or the Government of a Province, or to any class of persons with respect to schools or as regards the use of the English or the French language."

2. This Act may be cited as the British North America Act, 1949 (No. 2), and the British North America Acts, 1867-1949, and this Act may be cited together as the British North America Acts, 1867-1949 (No. 2).

And a Debate arising thereon;

Mr. Drew, seconded by Mr. Diefenbaker, moved in amendment thereto:

That the said proposed Resolution be amended by striking out all the words after the first word "That" and substituting therefor the following:—

"That His Excellency the Governor General in Council be requested to convoke as soon as may be possible a constitutional convention of representatives of the Dominion and Provincial Governments to devise a method of amending within Canada the constitution of Canada, and of safeguarding minority rights; so that such method may become the subject later of an humble Address, when adopted, to His Majesty the King praying an amendment of the British North America Act, 1867, accordingly."

And the Debate continuing;

RULING OF MR. SPEAKER

MR. SPEAKER: I am now prepared to give a ruling. First of all, I wish to thank the honourable member for Kamloops (Mr. Fulton) for the care he has taken to explain why he thinks that the motion is in order. He has cleared up for me several points on which I had some doubt. There is, however, one point which he has not cleared up and that is whether or not the amendment amounts to a motion for which notice must be given. He did not satisfy me with regard to that. I am not stating that he entirely satisfied me with regard to the other doubts which I had in my mind, especially the question as to whether this motion would require the Government to make an expenditure and was not merely setting forth an abstract principle. It will not be necessary, however, for me to make a ruling on that point.

I would point out to honourable members that Citation 355 of Beauchesne's Parliamentary Rules and Forms, third edition, makes it clear that an amendment must not raise a question which can only be considered as a distinct motion after notice. The principal motion before the House asks that an Address be presented to His Majesty the King praying for a measure to be laid before the Parliament of the United Kingdom in amendment of Section 91 of the British North America Acts, 1867-1949. The amendment, on the other hand, envisages the convocation of a constitutional convention to devise a method of amending the constitution of Canada. In my view the amendment is so different, in substance and effect, from the main motion as to require its introduction as a distinct motion after notice. I would refer honourable members to Canadian Commons Journals, 1929, pages 109-111.

It is not necessary for me to consider the other points which the honourable member has mentioned. My view is that this motion is so different in substance and effect from the main motion as to require its introduction as a distinct motion after notice. I must accordingly rule the amendment out of order.

And the Debate continuing on the main motion; the said Debate was, on motion of Mr. Fulton, adjourned.

At eleven o'clock, p.m., Mr. Speaker adjourned the House without question put, pursuant to Standing Order 7, until to-morrow, at three o'clock, p.m.

HOUSE OF COMMONS

OF CANADA

OTTAWA, WEDNESDAY, 19TH OCTOBER, 1949

PRAYERS.

The Clerk of the House laid upon the Table the Twelfth Report of the Clerk of Petitions stating that he had examined the following petition presented on October 18, praying for the passing of an Act to grant a divorce and to dissolve the marriage of the petitioner, and finds that all the requirements of Standing Order 68 have been complied with, viz:—

Of Elizabeth Maud Gwendolen Tobi Hearn, now residing in the Netherlands, wife of Jack Runchey Hearn of Montreal, P.Q.—*Mr. Winkler.*

The Clerk of the House laid upon the Table the Thirteenth Report of the Clerk of Petitions stating that he had examined the following petition presented on October 18, and finds that all the requirements of Standing Order 68 have been complied with, viz:—

Of The British and Foreign Bible Society in Canada and Newfoundland, for an Act to amend its Act of incorporation.—*Mr. Fleming.*

Mr. St. Laurent, a Member of the King's Privy Council, laid before the House,—Summary of Orders in Council and Treasury Board Minutes, passed during the following periods: October 1, 1948 to December 31, 1948 inclusive; January 1, 1949 to March 31, 1949 inclusive, and April 1, 1949 to June 30, 1949 inclusive.

Mr. Blanchette, Parliamentary Assistant to the Minister of National Defence, laid before the House, by command of His Excellency the Governor General,—Report of the Department of National Defence for the fiscal year ended March 31, 1949.

Mr. Lapointe, a Member of the King's Privy Council, laid before the House,—Copy of correspondence between the Minister of Justice and the Attorney General of Saskatchewan with reference to an investigation under the provisions of the Combines Investigation Act with respect to recent increases in price of crude oil, gasoline and fuel oil.

The following Question on the Order Paper was passed by the House as an Order for Return, under subsection 4 of Standing Order 44, and an Order of the House was issued to the proper officers, accordingly, viz:—

By Mr. Wright:—1. Were any naval personnel transferred from the Canadian Joint Training Centre station at Rivers, Manitoba, to Dartmouth, Nova Scotia, at any time since August 1, 1949? If so, on what date or dates and how many were involved in such transfer?

2. Were any naval personnel transferred from Dartmouth to Rivers subsequent to the transfer east noted above? If so, on what date or dates and how many were involved in such transfer?

3. Were any of the personnel transferred east, as noted above, the same personnel as those transferred west, as noted above? If so, how many were thus transferred both ways?

Mr. Blanchette, Parliamentary Assistant to the Minister of National Defence, presented,—Return to the foregoing Order forthwith.

Mr. Church, seconded by Mr. Brooks, moved,—That, in the opinion of this House, in view of the deplorable loss of life in Canada from accidents on the highways and at level crossings, drownings, fires and other causes, the government should seek the co-operation of the provinces, municipalities and organizations throughout Canada in acquainting our people with this appalling toll and seek to find means of curtailing same.

RULING OF MR. SPEAKER

MR. SPEAKER: It occurs to me that this motion does not merely express an abstract opinion and that its adoption would necessarily involve the expenditure of money. A few days ago (see *Hansard* of this session, page 578) I gave a ruling on a similar motion by the honourable member for Vancouver East (Mr. MacInnis), and I believe this motion would be out of order on the same grounds as the one moved previously. Accordingly I must rule the motion out of order.

From this decision Mr. Church appealed to the House.

And the question being put by Mr. Speaker: Shall the Ruling of the Chair be sustained?—it was decided in the affirmative, on the following division:

Mr. Knight, seconded by Mr. Noseworthy, moved,—That, in the opinion of this House, the government should take into consideration means of expanding and equalizing educational opportunity across Canada, by the granting of financial assistance to the various provinces for that purpose.

Mr. Smith (Calgary West) raised the point of order that the proposed motion involved the expenditure of public money, and was out of order.

Mr. Speaker ruled against the point of order raised.

RULING OF MR. SPEAKER

Mr. SPEAKER: The honourable member for Calgary West has raised a point of order as to whether the motion moved by the honourable member for Saskatoon is in order. The honourable member for Calgary West says that it is out of order for the same reason that I ruled the motion of the honourable member for Broadview out of order. It seems to me that there is a difference in these two motions. The motion that I ruled out of order, if carried, would be a direct order from this House which the Government, of necessity, would be required to put into effect, and would require the expenditure of money.

The motion now moved by the honourable member for Saskatoon, if carried, would not be a direct order from this House which the Government would be required to put into effect. It would merely require the Government to take the matter under consideration. I think there is a difference, and I must rule that the motion of the honourable member for Saskatoon is in order.

And a Debate arising on the said motion, and continuing;

At six o'clock, p.m., Mr. Speaker adjourned the House without question put, pursuant to Standing Order 6, until tomorrow, at three o'clock, p.m.

“or as regards the requirement of section twenty of this Act that there shall be a session of the Parliament of Canada at least once each year, or as regards the requirements of section fifty of this Act that no House of Commons shall continue for more than five years.”

And the Debate continuing;

Mr. Garson, seconded by Mr. Gregg, moved in amendment to the amendment:—

That the amendment proposed to the resolution be amended by striking out the words “requirement of section twenty of this Act” and substituting therefor the word “requirements” and by striking out the words “or as regards the requirement of section fifty of this Act” and substituting therefor the word “and”, and by adding at the end of the proposed amendment after the words “five years” the following words:

“from the day of the return of the Writs for choosing the House; provided however, that a House of Commons may in time of real or apprehended war, invasion or insurrection be continued by the Parliament of Canada if such continuation is not opposed by the votes of more than one-third of the Members of such House.”

Resolutions to be reported.

By leave of the House, the said Resolutions were reported, read the second time and concurred in, and the Committee of Ways and Means to sit again at the next sitting of the House.

Mr. Abbott then, by leave of the House, presented a Bill, No. 118, An Act for granting to His Majesty certain sums of money for the public service of the financial year ending the 31st March, 1950, which was read the first time.

RULING OF MR. SPEAKER

MR. SPEAKER: I think I should point out that this resolution may be out of order on the same grounds as the resolutions previously moved by the honourable member for Vancouver East (Mr. MacInnis) and the honourable member for Broadview (Mr. Church). The first portion of the resolution contains these words “. . . immediate consideration should be given to the advisability of introducing a bill or declaration of rights . . .”

This, of course, does not constitute an instruction to the government. However, I would ask honourable members to look at the last paragraph of the resolution. The words “immediate consideration should be given to the advisability of” do not apply to or govern the concluding portion of the motion, which requires unconditionally that as a preliminary step the Minister of Justice shall submit a question to the Supreme Court of Canada. This purports to convey a direct order to the government to do something which could not be done without an expenditure of public money. I would think the first part of the resolution would be in order, but in my opinion the latter part would be out of order; and if part of a resolution is out of order the whole resolution is out of order.

Unless anyone would like to offer any comments, I am prepared to rule now that the resolution is out of order.

Mr. Gagnon, seconded by Mr. Poulin, moved,—That in the opinion of this House, the government should take into consideration the establishment of a special committee, during the present session, to examine into the advisability of granting to the French-Canadians the proportion and classes of civil service positions to which they are entitled.

And a Debate arising thereon, and continuing;

At six o'clock, p.m., Mr. Speaker adjourned the House without question put, pursuant to Standing Order 6, until tomorrow, at three o'clock, p.m.

Mr. Smith (Calgary West) having raised, during the division, the point of order that an honourable member was not in the Chamber when the question was put and that his vote should therefore not be recorded;

RULING OF MR. SPEAKER

MR. SPEAKER: I should like to refer first to the point of order raised by the honourable member for Calgary West (Mr. Smith). Citation 67 of Beauchesne's Second Edition reads: "If a member was not present in the House when the question was put by the Speaker, he cannot have his vote recorded."

I am glad the honourable member for Calgary West brought this matter to my attention because I did not see the honourable member come in after the question had been put. Honourable members will realize that it is difficult for the Speaker when he is reading a resolution to see what members come into the Chamber after he starts to read the resolution. But I would point

out this citation to all members and ask them to note that a member should be in the House and should hear the question read from the beginning (See Can. Commons Hansard, 1891, page 4457). I did not give my ruling at that time because of citation 84 of Beauchesne, Second Edition, which reads: "The Speaker when his attention has been called to a breach of order in the course of a division has directed that the division should proceed, and has dealt with the matter when the division was completed."

And the Debate continuing on the main motion as amended;

Mr. Blackmore, seconded by Mr. Low, moved in amendment thereto,—
That the Speaker do now leave the Chair for the House to resolve itself into Committee of the Whole to consider this Resolution.

RULING OF MR. SPEAKER

MR. SPEAKER: The honourable member for Lethbridge (Mr. Blackmore), seconded by the honourable member for Peace River (Mr. Low) has moved an amendment that the Speaker do now leave the Chair for the House to resolve itself into Committee of the Whole to consider this Resolution. There is no provision in the rules for the House to resolve itself into Committee of the Whole on a Resolution of this type. I refer honourable members to Standing Order 48 and to Citation 394, Beauchesne, Second Edition. In my opinion this is not an amendment (See Beauchesne, Third Edition, Citation 375). Therefore the proposed amendment is out of order, and I so rule.

And the question being again proposed on the main motion, as amended;

Mr. Church, seconded by Mr. Hodgson, moved in amendment thereto:—
That the Resolution be not adopted.

Mr. Speaker ruled the said proposed amendment out of order as being a direct negative.

And after still further Debate, the question being put on the main motion, as amended; it was agreed to on the following division:—

Mr. Graydon, from his place in the House, asked leave, under Standing Order 31, to move the adjournment of the House for the purpose of discussing a definite matter of urgent public importance, and stated the subject to be:—

“The situation created by the Government's arbitrary action in authorizing a drastic increase of rentals.”

Mr. Speaker decided that there was no urgency to adjourn the House for the proposed discussion as honourable members would be afforded an early opportunity to discuss this matter on the motion to go into Committee of Supply which was already before the House and would be reached later this day.

The following Address was voted to His Excellency the Governor General, and Orders of the House issued to the proper officers:—

By Mr. Knowles:—Order of the House for a copy of any charts or diagrams in the possession of the Engineering Branch of the Department of Public Works, or any other branch or department of the Government showing the full cross-sections of the rocky barriers at Lister's Rapids and at Grand Rapids in the Red River, between Winnipeg and Lockport.

The Order being read for resuming the adjourned Debate on the proposed motion of Mr. Fournier (Hull), for Mr. Abbott: That Mr. Speaker do now leave the Chair for the House to resolve itself again into Committee of Supply, and on the proposed motion of Mr. Knowles in amendment thereto.

RULING OF MR. SPEAKER

MR. SPEAKER: It may be recalled that before this Debate was adjourned on Monday, October 31, I invited discussion on whether or not the amendment moved by the honourable member for Winnipeg North Centre (Mr. Knowles) was in order. Since then I have had an opportunity of studying this matter further.

It is quite true that wide latitude is traditionally allowed in respect of matters discussed and amendments moved on a motion to go into supply and that grievances may be ventilated before the granting of supply. (See Journals, House of Commons, Vol. 66, page 246).

On the other hand, there are certain well-established exceptions to this proposition. In particular, Citation 467 of Beauchesne's "Parliamentary Rules and Forms", 3rd Edition, makes it clear that an amendment to the motion to go into supply cannot "relate to any resolution to be proposed to the Committee of Ways and Means". At the present time there is a resolution to amend the Income War Tax Act and the Income Tax Act on the Order Paper appearing in the name of the Minister of Finance which is to be proposed to the Committee of Ways and Means and as the amendment of the honourable member for Winnipeg North Centre also relates to the Income Tax Act it would appear to be irregular in view of the aforementioned Citation 467. Also, if the amendment is allowed to stand there would be two motions on the Order Paper on the same subject at the same time.

Notwithstanding what I have said, in view of the fact that such an amendment might be in order after the budget resolutions are disposed of and also because there has been considerable debate on the proposed amendment, I feel that it would expedite the business of the House if the proposed amendment were entertained and disposed of at this time. In reaching this conclusion, I would like to emphasize that this should by no means be regarded as a precedent to be followed on future occasions.

The House then resumed the adjourned Debate on the proposed motion of Mr. Fournier (Hull), for Mr. Abbott: That Mr. Speaker do now leave the Chair for the House to resolve itself again into Committee of Supply.

And on the proposed motion of Mr. Knowles in amendment thereto:—That all the words after the word "That" to the end of the question be struck out, and the following be substituted therefor:

"this House is of the opinion that the government should give consideration to the introduction of legislation amending the Income Tax Act so as to make it possible for taxpayers to deduct trade union dues from income before computing the amount of income tax to be paid."

And after still further Debate, the question being put on the said proposed amendment, it was negatived on the following division:—

Whereupon, Mr. Fournier (Hull), a Member of the King's Privy Council, for Mr. Gardiner, informed the House, That His Excellency the Governor General, having been informed of the subject-matter of the said proposed Resolution, recommends it to the House.

Resolved, That the House do go into Committee of the Whole, at the next sitting of the House, to consider the said proposed Resolution.

The Order being read for second reading of Bill No. 144, An Act to amend the Combines Investigation Act;

Mr. Garson moved,—That the said Bill be now read the second time.

And a Debate arising thereon;

A question having been raised as to whether the present Debate was not a repetition of the Debate which had taken place on Monday, November 7, on the motion for the House to go into Committee of Supply, Mr. Speaker gave the following ruling:

RULING OF MR. SPEAKER

MR. SPEAKER: After the Order of the Day has been read for the second reading of a bill or otherwise, the remarks of members must be "strictly relevant to the business under consideration". (Beauchesne's Parliamentary Rules and Forms, third edition, citation 140).

The "business under consideration" on the second reading of a bill is the principle of the bill. Members must accordingly confine themselves to a discussion of that principle and must refrain from introducing or referring to extraneous matters. (Bourinot, Parliamentary Procedure, Fourth edition, page 509). The words which I am about to utter refer directly to this bill.

On the second reading of an amending bill—(honourable members will notice that this is an amending bill)—it is the principle of the amending bill, and not the principle of the act to be amended, which is the "business under consideration". The discussion must therefore relate exclusively to the principle of the amending bill. If, for example, a bill were introduced to amend a certain section of the Criminal Code of Canada, the discussion would have to relate to the principle of the particular amendment. It would be irregular to enter upon a general discussion of the Criminal Code as a whole. (See Blackmore's Speaker's "Denison and Brand's" Decisions, 1857-84, at page 70).

The principle of the present bill, An Act to amend the Combines Investigation Act, is that it is desirable to facilitate the enforcement of that act by providing for the institution of proceedings by the Attorney General of Canada, by eliminating jury trials where corporations are charged with offences under the Act, and by modifying and clarifying the applicable rules of evidence. The present discussion should accordingly relate exclusively to this principle. It is not in order to discuss the principle of the Combines Investigation Act itself, or to discuss clauses of that Act, or other matters, not clearly related to the principle of the amending bill.

It seems clear that a renewed general discussion of the McGregor Report, a Debate on which took place on November 7 on the motion to go into Supply, is not in order on the motion for the second reading of this bill, because the discussion must relate exclusively to the principle of the amending bill.

Most of the discussion on the point of order has turned on citation 245, Beauchesne's third edition, which restates a passage from May's fourteenth edition, and reads as follows:

"It is a wholesome restraint upon members that they cannot revive a debate already concluded; and it would be of little use in preventing the same question from being offered twice in the same session if, without being offered, its merits might be discussed again and again."

I am of the opinion that this citation would not preclude all reference to matters dealt with during the earlier debate on the motion to go into Supply so long as the reference can be shown to relate clearly to the principle of the amending bill now before the House. In reaching this conclusion I have also been conscious of the fact that the matter of the McGregor Report was raised on the motion to go into Supply as the result of a ministerial statement, and not by a private member raising a grievance or speaking in opposition to the motion. This being so, it would seem inequitable to rule out of order all reference to the matters dealt with at that time.

On the other hand, it seems to me there are many aspects of the McGregor Report which bear no relation to the bill before the House, and the discussion of which would not be in order on the motion for second reading. Nevertheless in view of all the circumstances connected with the present debate, I think some reasonable leeway should be allowed. I refer to May, 14th edition, at page 497:

"Debate on the stages of a bill should be confined to the bill, and should not be extended to a criticism of administration . . . but the Speaker remarked, when called upon to enforce this rule, that on many such occasions some licence was conceded to honourable members who addressed the House; and the rule is occasionally relaxed."

Accordingly I am inclined to think that the Leader of the Opposition (Mr. Drew) should be permitted to proceed. In saying this, however, I should like to express the hope that all honourable members will bear in mind the necessity of discussing the principle of the bill, so it may not be necessary for the Chair to qualify the indulgence which has been granted.

And the Debate still continuing;

Mr. Drew, seconded by Mr. Diefenbaker, moved in amendment thereto:— That the said Bill be not now read the second time but that the subject-matter thereof be referred to the Standing Committee on Banking and Commerce with instructions that they have power to send for persons, papers and records and that in addition to other recommendations with respect to the subject-matter of the said bill they shall also have power to report upon the extent to which the effective administration of legislation relating to restrictive trade practices has been, or is being, prejudiced by the action of the Government in failing to carry out the mandatory requirements of the existing law.

And the Debate still continuing, the said Debate was, on motion of Mr. Smith (Calgary West), adjourned.

At eleven o'clock, p.m., Mr. Speaker adjourned the House without question put, pursuant to Standing Order 7, until tomorrow, at eleven o'clock, a.m., pursuant to Special Order made Friday, November 11, 1949.

MR. SPEAKER: The amendment before the House at this time proposes to amend the motion that the bill under consideration be now read a second time. The form of the amendment is that the bill be not now read a second time but that the government should give immediate and prior consideration to a certain rentals order. The honourable member for Winnipeg North Centre has referred me to citation 657 of Beauchesne's third edition which reads:

"It is also competent to a member who desires to place on record any special reasons for not agreeing to the second reading of a bill, to move as an amendment to the question, a resolution declaratory of some principle adverse to, or differing from, the principles, policy, or provisions of the bill, or expressing opinions as to any circumstances connected with its introduction, or prosecution; . . ."

I do not think the amendment would come within the provisions of the section of that citation as far as I have read them. The citation goes on:

". . . or otherwise opposed to its progress; . . ."

The amendment, being in the proper form, might possibly come within these words. However, I would point out to honourable members that the amendment must be relevant to the question which is under consideration. This amendment suggests that the government give immediate and prior consideration to rescinding an order announced on November 3, providing for increases in domestic rents. May I inform the honourable member that that increase in no way affects any houses that are to be built under this bill. The order with regard to rents affected houses which were in existence in 1941 and probably some time subsequent to that date; but in no way can it be considered that the order affects anything that might be done under this bill. I would refer honourable members to citation 354 of Beauchesne's third edition which reads as follows:

"An amendment setting forth a proposition dealing with a matter which is foreign to the proposition involved in the main motion is not relevant and cannot be moved." (Can. C. J., Vol. LX, p. 122).

In my opinion this amendment deals with a matter which is foreign to the proposition involved in the motion which is now before the House, and is therefore not relevant, and I must accordingly rule it out of order.

And the Debate still continuing on the main motion;

At six o'clock p.m., Mr. Speaker left the Chair, to resume the same at eight o'clock p.m.

8 P.M.

And a Debate arising thereon;

A point of order was raised that, as the proposed motion had reference to Private Bills, it should, under the provisions of Standing Order 116, be referred to the Standing Committee on Standing Orders, and that such reference could only be made by motion after due notice.

RULING OF MR. SPEAKER

MR. SPEAKER: The honourable member for Lake Centre (Mr. Diefenbaker) and the honourable member for Vancouver East (Mr. MacInnis), and other honourable members, have all emphasized that this is the first time the question has arisen in the House within the memory of any honourable member. It seems to me that there is a difference between the Orders affecting Private Bills, other bills and the public business of the country. Standing Order 116 comes within the Orders under the heading of Part II, "Private Bills". Under that in large type appears the following heading: "Petitions, Deposit of Bills and Fees, Additional Charges."

Standing Order 116 reads in part as follows: "... no motion for the suspension or modification of any Standing Order applying to Private Bills ... shall be entertained by the House until after a reference is made to the Committee on Standing Orders ..."

Taking into consideration my experience in the House and the experience of other honourable members, and also referring to page 586 of Bourinot's fourth edition, where reference is made to Rule 115, which is now 116, it seems to me that Standing Order 116 is restrictive to those Standing Orders definitely applying to Private Bills rather than to a Standing Order such as 15, which applies to the more general procedure of the House; and I rule that it is now in order for the Prime Minister to proceed with his motion.

From this decision, Mr. Drew appealed to the House.

And the question being put by Mr. Speaker:—Shall the ruling of the Chair be sustained?—It was decided in the affirmative, on the following division:—

Mr. Knowles, seconded by Mr. MacInnis, moved in amendment thereto: That the motion be amended by inserting therein between the word "Private" and the word "Bills", at each of the three places in the said motion where the phrase "Private Bills" appears, the words "and Public", so that in each case the phrase "Private Bills" will read "Private and Public Bills".

STATEMENT OF MR. SPEAKER

MR. SPEAKER: Before reading the amendment, may I say to the honourable member for Winnipeg North Centre (Mr. Knowles) that I noted his remark when he reminded me that he did not approve of my ruling this morning. Perhaps I should have reminded him and other honourable members of the House at that time that Standing Order 15 is frequently suspended with regard to Monday sittings. Standing Order 15 provides for the order of business as follows:

"Monday (Private Member's Day)
Private Bills."

That Standing Order is regularly suspended. I think it has been suspended in every session which I have attended without any reference to the Committee on Standing Orders.

And the Debate still continuing;

And the question being put on the said proposed amendment, it was negatived.

And the question being put on the main motion; it was agreed to, on the following division:—

2. Did the National Film Board make any decision during said years that it considered the use of commercial firms for the production of films advisable in the public interest? If so, in what case or cases, on what date or dates did it so decide and for what reason in each case?

The following Order of the House was issued to the proper officers:—

By Mr. Pouliot:—Order of the House for a chart of the Central Mortgage Corporation, indicating positions, grades, names and salaries.

The House then resumed the adjourned Debate on the proposed motion of Mr. Garson:—That Bill No. 144, An Act to amend The Combines Investigation Act, be now read the second time.

And the Debate continuing;

Mr. Diefenbaker, seconded by Mr. Green, moved in amendment thereto: That all the words after "That" to the end of the question be deleted and the following be substituted therefor:

"while this House is at all times anxious to assist in remedying any defects in the law with respect to combinations in restraint of trade that operate against the public interest, it regrets that His Majesty's Ministers have failed to comply with the mandatory requirement of publication of Reports under the Combines Investigation Act, and that before inviting Parliament to enact the said Bill have failed to give any assurance that there will be no similar breach of the Constitution in respect of this or any other act passed by the Parliament of Canada."

And the Debate still continuing;

A point of order was raised that the proposed amendment was similar to the amendment previously proposed by the Leader of the Opposition and disposed of, and ought not, therefore, to be entertained.

RULING OF MR. SPEAKER

MR. SPEAKER: A number of points have been raised, but may I deal first with the reference to citation 755 of Beauchesne's second edition, which is 657 of his third edition. This reference has been read by the honourable member for Vancouver East (Mr. MacInnis) and it appears to be so wide as to allow amendments which do not refer directly to the wording of the original motion. I think I should point out, however, that those amendments must necessarily be relevant to the bill which is before the House. May's Parliamentary Practice, thirteenth edition, page 391, states, as I mentioned earlier, that "the principle of relevancy in an amendment governs every such proposed resolution". In view of my ruling earlier today, no honourable member has satisfied me that this amendment is sufficiently relevant to make it in order. Moreover, a close inspection of the references made by the honourable members for Lake Centre (Mr. Diefenbaker) and Winnipeg North Centre (Mr. Knowles) does not disclose anything to disturb that principle. The honourable member for Vancouver East also said that the whole act is open to debate. I cannot agree with him. I gave a ruling to the contrary last week. He stated that he could refer me to other rulings. I could probably remind him that I gave a different ruling

myself when I was Deputy Speaker, but since then I have had the advantage of the advice of the members of this House, and I find I was wrong then but I believe I was right last week.

A question has been raised by the Minister of Justice (Mr. Garson) to the effect that this amendment is so similar to the amendment which was moved by the Leader of the Opposition that it cannot be moved a second time. In reply to that argument, the Leader of the Opposition has stated that his motion was to refer the matter to a committee. He did not deny that the contents of this amendment and his amendment were practically the same. Let me remind honourable members of the House that if the contents of this bill were referred to a committee, the committee would have to report back to the House and there would be an opportunity of debating that report and all that took place in the committee. The proposed amendment of the honourable member for Lake Centre is sufficiently, in material respects, similar to the amendment moved earlier in this debate by the Leader of the Opposition as to be inadmissible.

For the reasons which I have given, I am ruling the amendment out of order.

From this decision, Mr. Diefenbaker appealed to the House.

And the question being put by Mr. Speaker:—Shall the ruling of the Chair be sustained?—It was decided in the affirmative, on the following division:—

After still further Debate, the question being again proposed.

Mr. Knowles, seconded by Mr. MacInnis, moved in amendment thereto: That Bill No. 144 be not now read a second time, but that it be resolved that in the opinion of this House the circumstances connected with the introduction and prosecution of this measure, namely, the action of the Government in seeking amendments to the Combines Investigation Act, for the stated purpose of strengthening the enforcement thereof, at the very time when it has just been discovered that the Minister of Justice, with the approval of the Government, has deliberately violated section 27, sub-section (5) of the said Act, is an affront to Parliament, and that further consideration of this Bill should be deferred until this House, by this amendment, has censured the Government for violating the said Act by failing to make public the report of the Commissioner under the said Act with respect to the flour-milling industry within fifteen days, as required by law.

And the Debate still continuing:

RULING OF MR. SPEAKER

MR. SPEAKER: During debate, the honourable member for Winnipeg North Centre (Mr. Knowles) said this was the first time the word "censure" had been mentioned in an amendment or motion. No doubt that is true, but when speaking yesterday the Minister of Justice (Mr. Garson) stated that the Government accepted the previous amendment as a motion of censure, so it was then open to honourable members to discuss it as such. The honourable member for Winnipeg North Centre also read from May, thirteenth edition, at page 295, with respect to varying the character of a motion. It occurs to me that the amend-

ment moved by the Leader of the Opposition included at least part of the amendment now before the House. There is similarity as between the two amendments but, as I said before, there is also the inclusion in the former amendment of at least part of the present amendment.

A number of honourable members have suggested that this matter has not yet come before the House, but that the amendment of the Leader of the Opposition suggested that it be referred to a committee. As I stated this morning, if a matter is referred to a committee that committee reports back to the House, so in any event it would be before the House.

The honourable member for Lake Centre (Mr. Diefenbaker) referred to May, thirteenth edition at page 390, which is referred to in Beauchesne, third edition, as citation 657. I will agree with the honourable member that this amendment, to the extent that it relates to the circumstances under which the bill has been introduced, is correct; but I think it goes further than that. The Minister of Justice has pointed out that the amendments referred to by the honourable members for Winnipeg North Centre and Lake Centre, which were allowed, were in each case sub-amendments relating to amendments. They were related to an amendment then pending.

In view of all I have said, I can perhaps sum it up by saying that the proposed amendment in part relates to circumstances attending the introduction of the bill. It would therefore appear to be admissible under citation 657 of Beauchesne. However, in part it also amounts to a motion of censure on the Government on substantially the same basis as did a previous amendment moved during this Debate, upon which the House has already reached a decision by a recorded vote. I would refer honourable members to citation 357 of Beauchesne, third edition, which reads:

“No amendment shall call in question a principle on which the House has given a decision by its vote on a former amendment.”

Since the proposed amendment is defective in part, I must rule the amendment as a whole out of order.

From this decision, Mr. Knowles, appealed to the House.

And the question being put by Mr. Speaker:—Shall the ruling of the Chair be sustained?—It was decided in the affirmative on the following division:—

No. 62

JOURNALS

OF THE

HOUSE OF COMMONS

OF CANADA

OTTAWA, THURSDAY, 8TH DECEMBER, 1949

11 o'clock, a.m.

PRAYERS.

Mr. McIlraith, from the Special Committee appointed to examine into the operations of the Atomic Energy Control Board, presented the First and Final Report of the said Committee, which is as follows:—

Your Committee was appointed on October 31, 1949, under the following terms of reference:

Resolved,—That a special committee be appointed to examine into the operations of the Atomic Energy Control Board: that the said Committee be empowered to sit during the sittings of the house and to print such papers and evidence from day to day as may be ordered by the Committee; and to report from time to time; that the said Committee consist of Messrs. Bourget, Breithaupt, Brooks, Coldwell, Gibson (*Comox-Alberni*), Green, Kirk (*Digby-Yarmouth*), Low, McCusker, McIlraith, Murphy, Pinard, Stuart (*Charlotte*), Winkler.

Your Committee held six public sittings, several meetings in camera, and, in addition, visited the atomic energy project at Chalk River on November 15 and 16. It made a general survey of the Atomic Energy Control Board's activities in the field of scientific research and in particular examined the operation of the atomic energy project at Chalk River. Evidence was also adduced in regard to the financial aspect of the project in relation to the organization, housing and general administration of the whole community involved, as well as in relation to the scientific activities.

Your Committee is of the opinion that the atomic energy project at Chalk River is well and efficiently run, and that the Canadian activity is in the forefront of atomic research. It finds the calibre of the personnel excellent, the general morale of the employees high, and the administration efficient.

For Canada to continue in the forefront in this field, it will be necessary to press forward the work with vigour. Your Committee recommends the expansion and development of the project as required from time to time, and further

recommends that the government undertake the expansion of the present facilities by the construction of an additional reactor and such research equipment as may be required.

Your Committee believes that Canadian universities should be given every support which will enable them to continue and expand their contributions in the field of nuclear research. Already, with financial aid and encouragement from the Atomic Energy Control Board, it has been made possible for our universities to participate in several projects of vital importance in developing the use of atomic energy. By assisting the universities in important phases of atomic research, young persons with scientific aptitude and training can be recruited for the new and challenging fields of physical, biological, agricultural and medical sciences which have been enlarged by recent developments in the study of nuclear physics. Your Committee considers that a wise course is being followed in making grants to various universities throughout Canada which display interest and capacity in nuclear physics; and we believe that this policy avoids duplication of effort and consequent waste of public funds. Your Committee therefore recommends that the Atomic Energy Control Board be encouraged in its policy of granting aid and assistance to Canadian universities and to Canadian students in the study of nuclear physics and the beneficial uses of radioactive material.

Evidence placed before your Committee indicates that important research in the realm of medicine and agriculture is being undertaken at Chalk River, in some Dominion and Provincial government departments, medical institutions, and universities. Your Committee commends this work and recommends that further encouragement be given to it.

Evidence adduced also indicates that Canadian industry is becoming increasingly aware of the possibilities inherent in the field of atomic science; and in order that further encouragement be given to industry in carrying out these investigations, your Committee recommends that consideration be given to the free distribution of certain isotopes to approved industrial concerns for another year. Your Committee further recommends that the work initiated at the Conference on Industrial Uses of Radioactive Isotopes held at Ottawa on December 7, 1948, be continued and extended by holding further conferences. It is suggested that consideration also be given to holding regional conferences on this subject.

Your Committee is of the opinion that the closest liaison should be maintained between scientific groups operating in Canada and all other friendly nations, and commends the present attitude of Canada in this regard.

Your Committee has been in existence for only six weeks and in that time has been unable to complete its examination into the field of atomic energy development. Furthermore, this field is a new one, is widening rapidly, and may well be of tremendous importance to Canada. For these reasons your Committee recommends that a special committee be reconstituted next session.

Your Committee desires to place on record its appreciation of the assistance given to it by Dr. C. J. Mackenzie, President, National Research Council, and President, Atomic Energy Control Board; by Dr. David A. Keys, Vice-President (Scientific), National Research Council, in charge of the Atomic Energy project at Chalk River, and by the members of the Board's staff as well as the employees of the Chalk River project.

A copy of the printed minutes of proceedings and evidence together with a list of the documents filed with the Committee is appended.

(For Minutes of Proceedings, Evidence, etc., accompanying said Report, see Appendix to the Journals, No. 5)

Mr. St. Laurent, a Member of the King's Privy Council, laid before the House,—Copies of further correspondence between the Prime Minister of Canada and the Premiers of the various Provinces of Canada with respect to a Dominion-Provincial Conference to be held at Ottawa, January 10, 1950, to consider the amending of the British North America Act so that the Constitution of Canada may be amended by the Parliament of Canada; and also with respect to the holding of a further Dominion-Provincial Conference during the autumn of 1950 to discuss general questions of common concern to the Provincial and Federal Governments. (English and French.)

Mr. Fournier (Hull), a Member of the King's Privy Council, presented,—Return to an Order of the House of November 30, 1949, for a Return showing:—

1. Have the plans for the new railway terminal wharf at North Sydney been completed?

2. How many of these men and women have been discharged as unfit for further service?

3. How many of those discharged are now receiving allowances or pensions?

Mr. Garson, a Member of the King's Privy Council, presented,—Return to an Order of the House of November 16, 1940, for a copy of all letters and memoranda exchanged between the Minister of Justice and the Commissioner under the Combines Investigation Act, since January 1, 1946, regarding changes in the Combines Investigation Act and/or in the administration and/or enforcement thereof, suggested in any letter or other communication received by any Minister of the Government, or by the said Commissioner or his deputies, from any labour or farm organization, the Canadian Chamber of Commerce, the Canadian Manufacturers' Association, or any flour milling company, or from any persons on behalf of such organizations or companies, dated at any time since January 1, 1946.

JOURNALS

OF THE

HOUSE OF COMMONS

OF CANADA

OTTAWA, FRIDAY, 9TH DECEMBER, 1949

11 o'clock, a.m.

PRAYERS.

Mr. Bradette, from the Standing Committee on External Affairs, presented the Third Report of the said Committee, which is as follows:—

In the course of its recent study of the Estimates of the Department of External Affairs, your Committee received the latest information on the particular items referred and was impressed by the activities of that Department, its co-operation with other Departments of the Government, its active and real participation through delegates and representatives in the work of the United Nations, and its specialized agencies, and the numerous international conferences.

In regard to United Nations activities, your Committee notes with satisfaction that Canada was honoured in having the head of the Canadian Delegation elected Chairman of the Political and Security Committee of the General Assembly.

Your Committee considered the contribution made by Canada to the Budget of the United Nations and approves the representations made by Canada's delegates at the present session of the General Assembly to the Budget and Administrative Committee thereof for reconsideration of the amount of contribution by the various member nations.

Your Committee draws attention once more to the following recommendation made by the House of Commons External Affairs Committee in July, 1946:

"On the question of financial commitments, your Committee recommends that the Department of External Affairs take whatever steps necessary to insure adequate controls over expenditures of Canada's contributions to the various international bodies on which Canada is represented."

Referring to the Passport Office administration, your Committee expresses satisfaction at the Government's announced decision to provide adequate accommodation for this Office. Your Committee notes with satisfaction that there is now no delay in the issuance of passports.

Evidence was given respecting the aims and activities of the United Nations Association in Canada and its relations with the Department. Your Committee recommends that the Government consider the advisability of increasing its grant to this Association in the future.

Pursuant to suggestions made in the House and in the Committee, your Committee recommends that consideration be given to introducing legislation at the next session to change the designation of Secretary of State for External Affairs to Minister of External Affairs.

A copy of the printed evidence adduced is appended hereto.

(For Minutes of Proceedings, Evidence, etc., accompanying said Report, see Appendix to the Journals, No. 6.)

Then the Honourable the Speaker of the House of Commons addressed the Right Honourable the Deputy Governor General as follows:—

“MAY IT PLEASE YOUR HONOUR:

“The Commons of Canada have voted Supplies required to enable the Government to defray certain expenses of the Public Service.

“In the name of the Commons I present to Your Honour the following Bill:—

“An Act for granting to His Majesty certain sums of money for the Public Service of the financial year ending the 31st March, 1950.”

“To which Bill I humbly request Your Honour’s Assent.”

To this Bill the Clerk of the Senate, by command of the Deputy of His Excellency the Governor General, did thereupon say:—

“In His Majesty’s name, the Right Honourable the Deputy Governor General thanks his loyal subjects, accepts their benevolence, and assents to this Bill.”

After which the Right Honourable the Deputy Governor General was pleased to close the First Session of the Twenty-first Parliament of the Dominion of Canada, with the following Speech:—

Honourable Members of the Senate:

Members of the House of Commons:

Since the opening of the present session of Parliament you have approved measures required for the discharge of the constitutional responsibilities of our nationhood. As a result the Supreme Court of Canada will shortly become the final court of appeal for Canada.

In response to your address the Parliament of the United Kingdom has amended the British North America Act to vest in the Parliament of Canada the power to make amendments to the constitution of Canada in matters which are exclusively of federal concern.

Early in the New Year a Conference with representatives of the provincial governments will be held for the purpose of working out a satisfactory procedure for making within Canada such other amendments to the constitution as may from time to time be required.

Our country continues to take an active part in the proceedings of the United Nations. Despite that organization’s present inability to solve the major political problem confronting mankind, the United Nations has succeeded in coping with menacing situations in many parts of the world. At the current session of the General Assembly, Canada was elected to the Economic and Social Council.

It is gratifying that the agencies under the North Atlantic Treaty have been established and are undertaking the tasks which have been assigned to them.

My Ministers are giving constant attention to the defence needs of Canada. The consideration of the measure to consolidate existing legislation respecting our defence forces has not been completed. This measure will be re-introduced at your next session.

The real foundation of the ability of the nations of the North Atlantic community to defend themselves lies in their continued economic strength and stability. Canada is co-operating with other nations, particularly the United Kingdom and the United States, in seeking solutions to the difficult economic problems which still confront the democratic world.

The revaluation of currencies in Western Europe and the sterling area made it necessary to alter the exchange rate of the Canadian dollar.

You have approved important amendments to the National Housing Act designed to maintain the present high volume of housing construction.

Legislation has also been enacted to enable the federal government to enter into agreements with the provinces for sharing the cost of construction of a trans-Canada highway.

Provision has been made for three new departments to replace the Department of Reconstruction and Supply and the Department of Mines and Resources. These will be the Department of Mines and Technical Surveys, the Department of Resources and Development, and the Department of Citizenship and Immigration which will also be responsible for the administration of Indian Affairs.

A special Parliamentary Committee examined into the operations of the Atomic Energy Control Board.

During the Session measures have been enacted respecting forest conservation; the application of a national trade mark and the true description of commodities; the establishment of the Canadian Overseas Telecommunication Corporation; assistance in the production of coal in the Atlantic Maritime region; encouragement of the construction of ships in Canada; the disposal of surplus crown assets. Amendments have been made to the Prairie Farm Assistance Act of 1939; the Emergency Gold Mining Assistance Act; the Industrial Development Bank Act; the Criminal Code; the Royal Canadian Mounted Police Act; the Judges Act of 1946; the Animal Contagious Diseases Act; the Export and Import Permits Act; and the Veterans' Land Act of 1942. The fish inspection legislation has been revised. The Combines Investigation Act has been strengthened and a complete revision has been made of the Bankruptcy Act.

The Government has announced a new policy respecting grants to municipalities in which there is an exceptional concentration of federal property.

Members of the House of Commons:

I thank you for the provision you have made for all essential services for the current fiscal year. The budget resolutions, providing for substantial reductions in taxation, have been approved and the necessary legislation has been enacted.

Honourable Members of the Senate:

Members of the House of Commons:

As you return to your homes, I should like to extend to you and through you to those you represent my best wishes for the Christmas Season and to express the hope that Divine Providence will continue to bless our people with prosperity and happiness in the New Year.

His Honour the Speaker of the Senate then said:—

Honourable Members of the Senate,

Members of the House of Commons:

It is the Right Honourable the Deputy Governor General's will and pleasure that this Parliament is prorogued until Thursday, the nineteenth day of January, 1950, to be here holden; and this Parliament is accordingly prorogued until Thursday, the nineteenth day of January, 1950.

Speaker's Rulings:

1. Proposed motion of Mr. MacInnis that the Government should seek the co-operation of the provinces for the purpose of formulating a programme of social security; ruled out of order on the ground that it would impose a charge upon the public, 72, 73.
2. Bill may be read a third time on the same day that it is reported from Committee of the Whole, provided it is reported without amendment, 90-91.
3. Proposed amendment of Mr. Drew to motion of Mr. St. Laurent (for Address to His Majesty to amend British North America Act) that provinces be consulted; ruled out of order as so different in substance from main motion as to require introduction as distinct motion, after notice, 121.
4. Proposed motion of Mr. Church that the Government should seek co-operation of provinces in curtailing accidents on highways, from fires, etc.; ruled out of order on the ground that it would involve the expenditure of public funds, 130. Ruling appealed and sustained (yeas 141; nays 45), 131.
5. Proposed motion of Mr. Knight that the Government should take into consideration granting of financial assistance to provinces for educational purposes; Point of order (Mr. Smith, Calgary West), involved expenditure of public money; ruled in order—would merely require Government take matter under consideration, 131, 132.
6. Proposed motion of Mr. Diefenbaker that Government consider the introduction of a Bill of Rights, and that "the Minister of Justice do submit for the opinion of the Supreme Court", etc.; ruled out of order as purporting to convey a direct order to the government to do something which could not be done without an expenditure of public money, 160.
7. On a Point of Order: Member not present in House when Question put cannot have his vote recorded, 168.
8. Proposed amendment of Mr. Blackmore to Address to His Majesty the King that the House resolve itself into Committee of the Whole to consider Resolution (*Re* amending B.N.A. Act); ruled out of order—not an amendment, 169.

10. Proposed motion of Mr. Graydon to adjourn House under Standing Order 31 to discuss "The situation created by the Government's arbitrary action in authorizing a drastic increase of rentals"; ruled out of order as opportunity for discussion would be afforded on motion to go into Supply, later this day, 210.
11. Proposed amendment of Mr. Knowles (that Income Tax Act be amended to permit deductions of trade union dues from taxable income), to the motion of Mr. Fournier (Hull) for House to resolve itself into Committee of Supply; ruled out of order on the ground that an amendment to the motion to go into Supply cannot relate to any resolution to be proposed to the Committee of Ways and Means; however, debate allowed to continue, 211.
12. On question whether present debate on motion for second reading of Bill No. 144, An Act to amend The Combines Investigation Act was not a repetition of previous debate on motion to go into Supply; ruled

Speaker's Rulings:—(Concluded).

- that on second reading of an amending bill, discussion should be confined to the principle of the amending bill and not permitted on the principle of the bill to be amended, but that the Speaker has considerable latitude in the enforcement of this rule. Debate allowed to continue, 238.
13. Proposed amendment of Mr. Noseworthy (that the Bill to amend the National Housing Act be not now read the second time, but that the Government should give prior consideration to a certain rentals order) moved to the motion by Mr. Winters for second reading of Bill No. 142, An Act to amend The National Housing Act, 1944; ruled out of order as dealing with a matter foreign to the proposition involved in the motion before the House, and therefore not relevant, 242.
 14. On Point of Order that motion to extend hour for discussion of Private Bills beyond 9 p.m., Tuesday, must, under Standing Order 116, be referred to Standing Orders Committee; ruled that Standing Order 116 applicable to Standing Orders applying definitely to Private Bills and not to those applying to procedure, 265, 267. Ruling appealed and sustained (yeas 94; nays 42), 266. Order applied, 270.
 15. On Point of Order that amendment of Mr. Diefenbaker to motion for second reading of Bill No. 144, An Act to amend The Combines Investigation Act, was similar to amendment previously disposed of; amendment ruled out of order as being so similar as to be inadmissible, 277. Ruling appealed and sustained (yeas 148; nays 56), 278.
 16. Proposed amendment of Mr. Knowles to motion of Mr. Garson for second reading of Bill No. 144, An Act to amend the Combines Investigation Act; ruled out of order on the ground that it amounts to a motion of censure on substantially the same basis as did a previous amendment which had been decided by a recorded vote, 279. Ruling appealed and sustained (yeas 157; nays 56), 280.
 17. On Point of Order on motion to go into Supply, that discussion on marketing services not in order; ruled discussion on motion to go into Supply shall not relate to any decision of the House during the current session nor to any item in the Estimates, 302. Ruling appealed and sustained (yeas 148; nays 13), 302.
 18. Objection being taken in Committee of the Whole on Bill No. 194—*re* Trans-Canada Highway Act, to the ruling of the Chairman that the amendment proposing to increase Dominion assistance from 50 per cent to 75 per cent was out of order on the ground that it increased the financial responsibility of the Government; and an appeal being made to the House, the ruling of the Chairman was confirmed (yeas 152; nays 46), 306.
